## Experience

---

### Fullstack Developer - Wash24 Laundry (Remote)

Dec 2023 - Present

- Built a web-based admin system and Android app to manage orders, delivery progress, and customers (<https://www.adminlaundry.com/>)
- Improved delivery accuracy by 30% with real-time status updates
- Implemented staff attendance tracking with check-in and check-out monitoring
- Developed secure OTP + JWT authentication for web and mobile platforms

### Operations and System Development - Bina Nusantara University

Feb 2024 - Aug 2025

- Maintained and troubleshooted 90+ computers and lab devices for stable operations
- Built an asset borrowing website (<https://greenlit.apps.binus.ac.id/>) and an exam resubmission portal (<http://backup.lcas/>)
- Provided on-site support, resolving 30+ technical issues monthly to minimize downtime
- Managed university servers, ensuring security, uptime, and system performance

### Fullstack Developer - BitLearn (Freelance)

Aug 2023 - Feb 2025

- Built and maintained a responsive website for bootcamps and video learning (<https://www.bitlearn.site/>), serving 50+ users and hosting 50+ video courses and 3+ bootcamp programs

### Laboratory Assistant - Bina Nusantara University

Feb 2023 - Feb 2024

- Completed multiple trainings and qualification tests to be certified for teaching programming courses
- Taught 10+ different programming courses, with each class consisting of 25+ students, covering topics such as web development, algorithms, and databases
- Awarded Best Test in one of the TPA (Progressive Assistant Test) evaluations for achieving the highest score among peers

### Scholarship Mentor - Bina Nusantara University

Feb 2023 - Feb 2024

- Received a 32-credit scholarship and tutored multiple Computer Science courses, including Algorithm, Data Structures, and Web Development, for private students.

## Education

---

### Bachelor of Computer Science - Bina Nusantara University

Sept 2021 - Mar 2025

- GPA: 3.82 / 4.00

## Skills

---
